Query

Procurement route under Utility Contract Regulations

1. On page 35 of the main submission document, you describe the procurement process you proposed to follow for the parts of Minworth you are proposing to deliver in-house. Could you confirm which procedure under the Utility Contract Regulations you are proposing to follow and why.

Solution owner response

It is intended that we will competitively tender our requirements for the Minworth SRO in compliance with the Utility Contract Regulations 2016 using the negotiated procedure. This approach offers us the best opportunity to secure competitively negotiated frameworks/contracts. This is consistent with other major capital programmes/projects in AMP7 and how we plan to proceed in AMP 8.
