In section 6 you state you considered the six technical criteria for assessing suitability for DPC. Please provide your analysis of discreteness by each criterion underpinning your assessment.

Solution owner response

In all cases the documents submitted to RAPID contain information that is commercially confidential. Please ensure that appropriate steps and safeguards are observed in order to maintain the security and confidentiality of this information. Any requests made to RAPID or any organisation party by third parties through the Freedom of Information Act 2000, the Environmental Information Regulations 2004, or any other applicable legislation requires prior consultation and consent by each of Affinity Water Limited, Severn Trent Water Limited, and the Canal & River Trust in relation to the Grand Union Canal Strategic Transfer Project before information is released as per the requirements under the respective legislations. The content of the technical criteria for assessing suitability for DPC is draft and relates to material or data which is still in the course of completion in travel to Gate 2, and should not be relied upon at this early stage of development and is liable to further change as more information comes to light as a result of further investigations. We continue to develop our thinking and our approach to the issues raised in the document in preparation for Gate 2.
